Dear Mr. Giltay,

Thank you for your message.

Let me first clarify that Ms. Rodrigues Pineda represents the Chambers and does not speak on behalf of the OTP.

The OTP's mandate was to investigate and prosecute the crimes committed in Srebrenica. In that work, we received solid support from the Dutch government, and in particular, members of the DutchBat stationed in Srebrenica provided excellent cooperation in our investigations and repeatedly appeared as witnesses in our cases.

We don't have knowledge of 8 photo rolls that you refer to as being under lock and key in military intelligence archives. We did receive and introduce into court photos of 8 bodies in the woods near Potocari taken by DutchBat soldiers. Those photos are part of the public record in our cases, and, for example, can be found under exhibit numbers P02191, P02192 and P02193 in the Popovic et al. case and P01500, P01501 and P01502 in the Tolimir case.

I would like to underscore that the cooperation provided by DutchBat soldiers, including testifying in our cases, was essential to our successful prosecutions of the genocide committed in Srebrenica.

Best regards

Ljiljana
